

UNDERSTANDING EPINEPHRINE DELIVERY OPTIONS

1 | EPI-PEN® & EPI-PEN JR. 2-PAK

[HTTPS://WWW.EPIPEN.COM](https://www.epipen.com)

EpiPen® and EpiPen Jr.® are epinephrine auto-injectors used in emergencies to stop severe allergic reactions such as anaphylaxis. The adult dose delivers 0.3 mg, and the pediatric dose delivers 0.15 mg. Anaphylaxis can progress very quickly and can be deadly if not treated right away. Reactions may be triggered by foods, medications, insect stings, allergy treatments, physical activity, or sometimes no clear cause at all.

3 | GENERIC EPINEPHRINE AUTO-INJECTOR

[HTTPS://EPINEPHRINESTG.WPENGINEPOWERED.COM](https://epinephrinstg.wpenginepowered.com)

The authorized generic of Adrenaclick™ is an epinephrine auto-injector used for the emergency treatment of severe allergic reactions, including anaphylaxis. It is available in adult (0.3 mg) and pediatric (0.15 mg) doses to meet the needs of both adults and children.

2 | AUVI-Q®

[HTTPS://WWW.AUVI-Q.COM](https://www.auvi-q.com)

Auvi-Q is a pocket sized, voice guided epinephrine auto injector for the emergency treatment of severe allergic reactions, including anaphylaxis. It is available in 0.3 mg, 0.15 mg, and 0.1 mg doses, providing options for adults, children, and infants, with step by step voice instructions to guide caregivers during an emergency.

4 | EPINEPHRINE SUBLINGUAL FILM

[HTTPS://AQUESTIVE.COM/ANAPHYLM/](https://aquestive.com/anaphylm/)

Anaphylm™ is an epinephrine sublingual film in clinical development for the emergency treatment of allergic reactions, including anaphylaxis, using an oral film delivery method. It uses Aquestive's PharmFilm® technology and targets the same emergency indications as injectable epinephrine.

5 | TEVA® & TEVA JR.®

[HTTPS://WWW.TEVAEPINEPHRINE.COM](https://www.tevaepinephrine.com)

Teva's Epinephrine Auto-Injector works the same way in the body as EpiPen®. The adult version delivers 0.3 mg and Teva Jr. delivers 0.15 mg, the same doses as EpiPen® and EpiPen Jr. The FDA has approved Teva's auto-injector as therapeutically equivalent to EpiPen®, so it can be requested as a generic alternative at the pharmacy.

6 | EPINEPHRINE NASAL SPRAY

[HTTPS://WWW.NEFFY.COM](https://www.neffy.com)

Neffy is an epinephrine nasal spray for the emergency treatment of allergic reactions, including anaphylaxis. Neffy 2 mg is for individuals who weigh 66 pounds or more, and Neffy® 1 mg is for children ages 4 and older who weigh between 33 and less than 66 pounds. It also offers a longer shelf life than many needle auto-injectors, up to 2.5 years for the 2 mg dose and up to 2 years for the 1 mg dose, supporting both immediate response and long-term preparedness.
